

PowerSchool Products and API Services Statement

Purpose:

The purpose of this statement is to provide relevant information to end-users about PowerSchool’s use of Google API Services in PowerSchool’s software, platform, or services (“products”).

What are Google API Services:

Google API Services is a set of Application Programming Interfaces (APIs) that allows PowerSchool products to interact with and use Google features (such as Gmail, Google Cloud, etc.).

Description, and PowerSchool’s Commitments:

For certain PowerSchool products, Google API services may be leveraged by PowerSchool to enable users have access to [their] Google provided services, such as their Google Cloud to enable users share files on PowerSchool’s products. These services also enable users to edit or delete any of their files stored on Google Cloud from the interface within PowerSchool products. Google API (which is the connecting point between PowerSchool’s product, and Google provided services) is connection ensured by the authentication of a user, and followed by authorization by the user to allow the PowerSchool product access the Google feature(s).

Below we state PowerSchool’s commitment when we process your data through Google API integration in a PowerSchool product. PowerSchool is committed:

- a. To keep users’ credentials secure, and confidential where PowerSchool has obtained a user’s credentials to access any integrated Google feature(s).
- b. To ensure your data on PowerSchool products when you use Google API Services are processed securely, both in transit and at rest against unauthorized or unlawful access, use, destruction, loss, alteration, or disclosure. Please see more information in the “Security” section of this Privacy Statement.
- c. To only request access to the minimum necessary data by requesting the minimum relevant permission from users to access a Google feature.
- d. To respect your (privacy) selection when you refuse to grant access to a Google feature during the authentication and authorization process. Note that this may mean you will have to find other means of providing relevant information, files, etc., on the relevant PowerSchool product.

Please note that this Statement must be read in consonance with the PowerSchool Privacy Statement, and Terms of Use of applicable PowerSchool product.
