

PowerSchool SIS

SECURING AND STREAMLINING
STUDENT DATA THROUGHOUT THE WORLD

In today's ever-evolving learning environment, it's critical to have a student information management system that can adjust with the times. PowerSchool has been offering robust education solutions for over 25 years and currently serves over 95 countries and territories. PowerSchool SIS offers you key flexibility, security, and interoperability to help meet your needs today as well as set you up for future success around key initiative such as increasing security, centralizing data, and successfully delivering AI-driven personalized learning.

Configurable for Your Specific Needs

Add data fields and pages, and extend tables to **allow collection of any data** you need. Utilize flexible scheduling and attendance and make easy adjustments to grading, timetabling, reporting, and more.

Compatible with Other Systems

Extend your functionality through the **interoperability** of PowerSchool SIS with other robust PowerSchool solutions and an extensive network of partners for widescale compatibility.

Peace of Mind with Secure Data

Keep your data **safe, secure, and accessible** with our dedicated team of security experts as well as world class cloud hosting. PowerSchool SIS adheres to the highest security standards, holding ISO 27001 and SOC 2 certifications.

Promotes Family Engagement

Improve **student accountability** and help teachers communicate with the right people in less time with convenient access to grades, progress, and responsibilities—from the PowerSchool Mobile app or the online parent and student portal. Available in multiple languages—like Spanish and Arabic.

Unmatched Expertise

Get the most out of your edtech investment. Our **dynamic worldwide community of active users** collaborates to improve education operations and share best practices. Enhance your staff's skills and adoption with customer education.

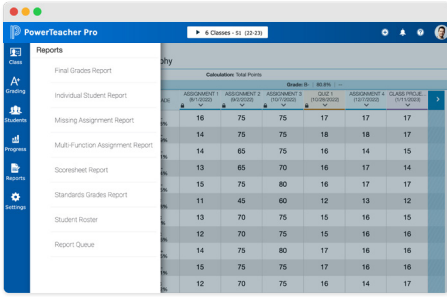

Introducing Lesson Planner

PowerSchool is proud to announce that PowerSchool SIS **now includes built-in lesson planning capabilities**. With the powerful Lesson Planner module, teachers can save time, collaborate better, and improve instructional alignment.

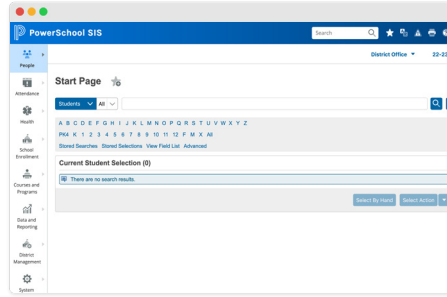

Simplified Student Insights

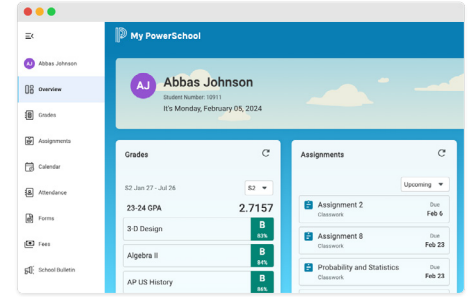

Take confidence with **accurate data** that is easy to use and access, so you can get the insights you need.
